Perth Amboy, NJ 08861

Dear Mr. Orman:

On February 5, 1987, we would like to sample six monitoring wells at your facility under RCRA's CME ground water monitoring program. We will sample three wells each at the North Field Settling Area and the East Yard Surge Basin. At the North Field site, we will sample wells NF-9C, NF-9B and a well to be determined later. At the East Yard site, we will sample wells SB-11, SB-12 and SB-13B. We will be analyzing for metals, volatile organics, base neutrals and PCBs. When we get the final results, you will be sent a copy of the data package with the results from our laboratory.

If you have any questions, please feel free to contact me at your convenience at 609-633-1492.

Very truly yours,

Brian L. Crisafulli
